Portfolio

## EDUCATION

**Bharati Vidyapeeth's College of Engineering (GGSIU)**

B.Tech in Information Technology, CGPA: 8.91

Sep. 2023 – June 2027

New Delhi, India

**Indian Institute of Technology (IIT) Mandi**

Minor in CSE & Advanced Technologies, Overall Avg: 94.38/100

Apr 2025 – May 2026

## TECHNICAL SKILLS

**Languages:** Java, C/C++, Python, JavaScript, TypeScript, SQL

**Frameworks / Libraries:** React.js, Next.js, Node.js, Express.js, Tailwind CSS, Shadcn/UI, Zustand, Framer Motion

**Databases:** MongoDB & Mongoose, MySQL, PostgreSQL (Supabase, Neon), Redis

**Cloud / DevOps:** AWS (EC2, S3), Docker, Nginx, Linux, CI/CD Pipelines, GitHub Actions

**Tools & Platforms:** Git, GitHub, Postman, Figma, Chrome Extensions, Vercel

**AI / GenAI:** Google Gemini API, Claude (Anthropic), OpenAI API, LLM-assisted Development, GitHub Copilot

**Core Concepts:** Data Structures & Algorithms, REST APIs, System Design, Scalable Architecture, OOP, API Integration

## EXPERIENCE

**FoundersCart Private Limited**

Software Developer Intern

Jun 2025 – Nov 2025

New Delhi, India (Hybrid)

- Developed two **production-ready extensions for monday.com CRM** using Node.js, Express.js, React.js, and GraphQL:
  - IVR Solution** – Architected and shipped a **WebRTC-based softphone** featuring click-to-call, call management, automated call logging, real-time contact synchronization, and CRM integrations, contributing to a **15% increase in lead generation**.
  - SensiBot** – Designed and developed a **real-time multilingual messaging platform** with automated translation, conversation logging, and seamless integration into monday.com workflows.
- Designed, developed, and published a **Chrome Extension (IVR Solutions WebRTC Softphone)** on the **Chrome Web Store**, enabling **click-to-call, softphone dialing, call management, and automated call logging** across CRM platforms without native integrations, driving a **20% uplift in qualified leads**.
- Engineered a **scalable meeting scheduling platform** with timezone-aware availability management and **Google Calendar, Google Meet, and Zoom API** integrations, streamlining booking workflows.

## PROJECTS

**EzMeet** | React.js, Node.js, Express.js, Supabase PostgreSQL, TypeORM, Google Calendar API, Zoom API

Live / GitHub

- Productized a **full-stack meeting scheduling platform** from an internship prototype into a production-ready system with end-to-end event creation, availability management, and booking workflows.
- Implemented **timezone-aware UTC slot management** with conflict-resolution logic and **Google Calendar, Google Meet, and Zoom** integrations to guarantee zero scheduling conflicts across time zones.

**IVR Solutions WebRTC Softphone** | JavaScript, WebRTC, Chrome Extension APIs, REST APIs, Webhooks

Web Store

- Independently designed, built, and published a **cross-platform WebRTC softphone Chrome Extension** end-to-end – from requirements to **live Chrome Web Store publication** – resolving CRM compatibility constraints for enterprise clients.
- Engineered a modular architecture using **Chrome Extension APIs** (background workers, content scripts, message passing) with **REST APIs and webhooks** for real-time call event handling within monday.com CRM.

**HumanCaptcha** | Next.js 15, TypeScript, MediaPipe, Canvas API, Tailwind CSS, Framer Motion, Zustand

Live / GitHub

- Built a **browser-native CAPTCHA platform** replacing mouse-and-keyboard verification with **MediaPipe hand gesture tracking** and **cognitive puzzle solving** — combining computer vision, live camera capture, and multi-step spatial interaction to resist bot automation.
- Designed a **reusable embeddable SDK** as a drop-in `<HumanCaptcha />` React component with real-time hand landmark detection, pinch-based cursor control, and dynamically generated image puzzles.

## LEADERSHIP / ACHIEVEMENTS

- Competitive Programming:** Solved **200+ DSA problems** on **LeetCode** (arrays, linked lists, trees, graphs, DP). LeetCode
- Hackathons:**
  - Top 0.2 percentile**, BuildWithIndia 2025 (25,000+ participants) – built *Nyayshala*, AI multilingual legal platform in 22 Indian languages.
  - Top 0.3 percentile**, Hack Defence & HackWithIndia (3,000+ participants) – built *Swabhimani AI*, real-time deepface detection tool.
  - Top 1 percentile**, Hack-Wave GDG GTBIT – built voice-enabled inventory management system for shopkeepers.
  - Internal round qualified**, Smart India Hackathon 2025 (national) – built *GradSphere*, centralized alumni engagement platform.
  - Selected for **Smart Delhi Ideathon 2025**.
- Certifications:** Microsoft AI Skills Internship (AICTE × Edunet Foundation) · Silver Medal, Inter-College Football Tournament.
